TOTAL VISUAL AND LIGHTING SOLUTION FOR MULTIDECK CHILLERS

Total Vision

Lightweight, frameless acrylic doors.
Double glazed, superb energy savings.
No channels to trap food or dirt.
No handle to break.
High quality hinges, self-closing.
Minimum stress on cabinet structure.

TOTAL VISUAL AND LIGHTING SOLUTION FOR MULTIDECK CHILLERS

Inner Illumination

Replaces canopy and mullion lighting. No shadow lines on shelves and base. Uniform lighting top to bottom, front to back. Fluid products sparkle. Long life LED's, robust system, low risk of damage. Providing all the product illumination that could be desired, general lighting levels in the sales area can be lower. Full height 4' module – just 80 Watts.

TOTAL VISUAL AND LIGHTING SOLUTION FOR MULTIDECK CHILLERS

Development is ongoing to put blinds inside the door skins for advertising or restricting product view in liquor cases when not being traded.

Door locks are on their way too!
